Velcro strips

Pencil  
Paint brush

### **Instructions:**

Tip: You can draw facial features onto paper and transfer to felt to make your own custom pieces. Make an extra face in another color so your friends can express themselves too!

Trace around the Styrofoam disc onto the yellow felt and cut out.

Paint the sides of the Styrofoam disc yellow.

Use the thick glue to adhere the felt circle to the Styrofoam. Glue a magnet piece to the back of the Styrofoam.

Trace the face pattern pieces onto desired felt colors and cut out. Glue the felt pieces to the card stock and cut out.

Cut small pieces of the looped end of the Velcro and glue to the back of the face pieces---this will allow them to stick to the felt face.

Optionally, you can make an extra piece to hold all your face pieces. Glue a piece of blue felt to a magnet sheet and stick the pieces to the felt when they aren't on a face.
